

Information for Author

Please make sure you have registered as author before submitting.

Getting Started:

- Log into ISAS system.
- Select your role as “Author”

Submitting Articles:

- Click the “Journals that are still active”

- Click “Submit Paper”

- Fill in the form ([Submit a Paper to IJCLCLP](#)) and upload the manuscript.

安全 | ijclp.iis.sinica.edu.tw/servlet/Member/PersonManipulation

Note:
 1 Confirmation of submission will be sent to corresponding author
 2 All of the authors can read/modify/upload/withdraw the submission

*Paper Title: CALL FOR PARTICIPATION - The Doctoral Consortium @ ROCLING 2019
*Keyword: Automated Writing Evaluation, Discourse Organization

*Abstract: This paper presents an initial attempt to examine whether Rhetorical Structure Theory (RST) (Mann & Thompson, 1988) can be fruitfully applied to the detection of the coherence errors made by Taiwanese low-intermediate learners of English. This investigation is considered warranted for two reasons. First, other methods for bottom-up coherence analysis have proved ineffective (e.g., Watson Todd et al., 2006). Second, this research provides a preliminary categorization of the coherence errors made by first language (L1) Chinese learners of English; second language discourse errors in general have received little attention in applied linguistic research. The data are 45 written samples from the LTTC English Learner Corpus, a Taiwanese learner corpus of English currently under construction. The rationale of this study is that diagrams which violate some of the rules of RST diagram formation will point to coherence errors. No reliability test has been conducted.
